

RI TRANSPARENCY REPORT

2019

Pension Protection Fund

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the [PRI website](#), ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

PRI disclaimer

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

Usage restrictions

Public Transparency Reports are the intellectual property of PRI. In no case, can this report or any content of it be sold to other parties.

Third party organisations who have accessed Transparency reports outside of the Data Portal and intend to use those require the prior written consent of PRI (other than for internal use or research or for the sole benefit of the organisation whose report this refers to).

The Pension Protection Fund (PPF) is a statutory fund run by the Board of the Pension Protection Fund, a statutory corporate established under the provisions of the Pensions Act 2004, and is classified as a public financial corporation. It was established to pay compensation to members of eligible defined benefit pension schemes in the United Kingdom, when there is a qualifying insolvency event in relation to the employer and where there are insufficient assets in the pension scheme to cover Pension Protection Fund levels of compensation. We are also responsible for the day-to-day running of the Financial Assistance Scheme (FAS) on behalf of the UK Government.

Over 130,000 people (31 March 2018) are now receiving compensation, and *hundreds of thousands* more will do so in the future.

The money needed to pay compensation, and the cost of running the PPF is generated by:

- charging a levy on eligible pension schemes;
- taking of the assets of schemes that transfer to the PPF;
- recovering money, and other assets, from the insolvent employers of the schemes we take on; and
- investing all income and assets, as part of a prudent strategy.

We have £30.0 billion in our investment portfolio (31 March 2018) which is continually growing, and is currently managed both internally and externally

Highlights as at 31 Mar 2018

- As at 31st Mar 2018, the PPF had over 230,000 members, made up of over 100,000 deferred members and over 130,000 members receiving compensation;
- By the end of our financial year, we were supporting 89 schemes in the assessment period, with assets of £6.4 billion and liabilities of £8.0 billion;
- By the end of March 2018, the PPF had a funding level of 122.8 per cent - an increase of 1.2 per cent on the previous year;
- By 31 March 2018, the probability of success of being financially self-sufficient by 2030 is 91 per cent, confirming we continue on the right path.

Further details regarding the PPF's strategic objectives and investment strategy for the year under review can be found in its annual report which can be found here:

The strategic asset allocation is set by taking into account the nature and timing of both actual and potential future liabilities, which are sensitive to interest rates, inflation, mortality and other financial and demographic factors. It is also set having regard to the Board's funding objectives. To meet these objectives the Board has set an investment return target, and risk appetite, consistent with the Board's low risk investment philosophy.

OO 11.4	Provide a brief description of how your organisation includes responsible investment considerations in your investment manager selection, appointment and monitoring processes.
<p>As part of any initial assessment of a new fund manager, ESG considerations are embedded into the RFP and Due Diligence processes. The Head of ESG and Investment Team will ensure that the manager has robust RI policies in place, and where any related processes are identified as requiring strengthening, secure a commitment on the part of the manager to work with us to do so.</p> <p>Through our in-house Manager reporting system, we monitor and record the ESG performance of all our external Fund Managers on an ongoing basis. These records are reviewed by a senior member of the Investment Team alongside the Head of ESG, and are regularly presented to our Assets and Liabilities Committee, Investment Committee and Executive Committee, throughout the year.</p>

---------	--

The PPF's primary mission is to have sufficient funds to pay compensation to current and future members. As a long-term, cross-generational investor, it is critical that we consider all potential risks over the entire time horizon of these liabilities. The Board of the PPF strongly believes that integrating material ESG risks and seeking to exploit ESG opportunities in a responsible way will protect and enhance the value of its assets. Fundamentally, we look to achieve this through engaging with managers and issuers, rather than divesting.

Our core responsible investment beliefs are:

1. By acting as a responsible and vigilant asset owner, we can protect and enhance the value of our investments.
2. Environmental, social and governance (ESG) factors can have an impact on the performance of our investments, and the management of ESG risks and exploitation of ESG opportunities can, particularly for a portfolio-wide issue like climate change, add value to our portfolio.

The Board strives to integrate the consideration of ESG-related risks and opportunities across all asset classes and markets in which it invests, and expects its fund managers to integrate relevant ESG factors into investment analysis and decision-making processes and demonstrate active stewardship.

SG 01.5	Provide a brief description of the key elements, any variations or exceptions to your investment policy that covers your responsible investment approach. [Optional]
---------	--

The Board of the PPF employs a Responsible Investment (RI) framework that integrates ESG risks and opportunities across existing business functions, with an essential focus on risk management. The PPF's core RI beliefs and our Statement of Investment Principles (SIP) inform the RI framework, which consists of four pillars, focusing on (i) Governance and Accountability of our approach to RI, (ii) Strategic Direction & Policies, (iii) Risk Management of RI issues, (iv) RI Metrics and Transparency.

Underneath this framework, there are three strategies of particular focus around Climate Change, Stewardship and Reporting and communications.

The PPF is committed to integrating RI criteria/ESG considerations across all investments through incorporation into its RFPs/tenders, manager selection criteria, operational due diligence, contractual agreements, on-going monitoring, engagement & voting, and reporting. Expectations of RI considerations vary from asset class to asset class, depending on relevance and current best practice. As part of the appointment process of our external agents, we include RI due diligence, and upon selection, we ensure that appropriate clauses on RI are incorporated into investment management agreements, side letters, etc. to communicate our RI expectations formally at the outset.

On-going monitoring and scoring of manager mandates

We are dedicated to monitoring how well our fund managers integrate ESG factors into their investment analysis and decision-making processes. Our in-house investment team uses a RI rating to help monitor our external fund managers. This RI rating forms part of a wider, integrated, performance-monitoring framework which includes other equally weighted qualitative factors and a quantitative performance assessment. We rate our fund managers' approach to RI across a number of key performance areas, such as alignment, ESG integration, stewardship, resources and reporting. Our red, amber or green rating is specific to asset class and strategy. All our fund managers are required to report their RI issues

alongside their investment performance, and RI is a standing agenda item in manager meetings. We have internal guidance documents or policies which set out our expectations of managers in various asset classes. These are updated as best practices emerge in the market, and their main purpose is to guide our investment team in forming an RI opinion of a manager, and to help establish specific proposals for improvement or development that may lead to a ratings upgrade. These documents are not public, but for the use of the team only.

At an individual fund level, ESG risks (including climate-related) are identified and assessed internally using monitoring processes, tools, data and systems, to help inform areas of engagement, such as discussions with our external fund managers, and other engagement initiatives or collaborations.

Collaborative efforts to improve or set RI standards across asset classes

Internally within the PPF we continue to develop our internal RI ratings framework and external fund manager engagement across the wide range of asset classes we invest in, focussing on improving ESG risk mitigation and reporting by our fund managers. We also continue to engage with industry peers on their experiences, and our Head of ESG has recently been appointed to the PRI's Infrastructure Advisory Committee.

Exercising our ownership rights such as shareholder rights and votes on advisory committees

We believe that voting our shares and engaging with companies are part of our oversight role in relation to the companies in which we invest. Exercising our shareholder rights is not an end in itself but an essential means of ensuring that boards are accountable, and are fulfilling their stewardship obligations to shareholders, including the delivery of long-term value. To vote the PPF's shares cost-efficiently across a growing global listed equity portfolio, we appoint external agents who also monitor portfolio companies for ESG risks, and where concerns arise, engage with company management. For our segregated portfolios, we use an overlay service. Due to current operational barriers to extracting voting rights from our pooled equity funds, we outsource stewardship activities in relation to these funds to the relevant managers. We actively monitor the voting and engagement activities throughout the year, and work with our agents to improve the quality and quantity of their stewardship activities globally.

The PPF has published its Statement of Compliance with the UK Stewardship Code. This Code aims to improve the quality of engagement between investors and companies to help maximise long-term returns to shareholders, as well as to improve and strengthen corporate governance. The PPF is listed as a signatory to the UK Stewardship Code on the Financial Reporting Council's website.

Reporting and Transparency

The Investment Team reports regularly to our internal Board and investment-related committees, and engages in ongoing training and education across the organisation. Externally, the PPF strives to be transparent on its RI activities. Information is available on our website, including our Annual Report and quarterly reports on the voting and engagement activities carried out on our behalf.

SG 02.3	Additional information [Optional].		
<p>We have a set of internal RI policy, guidance and implementation documents, including those that describe our RI minimum expectations of portfolio companies and fund managers across a number of asset classes. These are reviewed and updated periodically, e.g. when new best practice guidelines are issued by PRI or other organisations, but at least annually. The purpose of these documents is to guide the ratings decision of investment team members (who assess each strategy against our RI expectations) and inform our due diligence process and requirement for incorporating ESG into fund terms, etc. When communicating our expectations to managers, the feedback is tailored to the areas where we see need for improvement. Best practice in some asset classes is scarce, and is still developing, but we provide our fund managers with a description of our ratings processes, which is available on our website.</p> <p>We are in the final stages of formalising a Climate Change policy, which will be made publicly available once approved. We are also drafting a policy on our stewardship approach, which will also be made publicly available once approved.</p>

<p>An example for a source of conflict (although none have arisen to date) is where we are shareholders of a company and also protect the members of the pension fund of that same company. We adopt an arms length approach to such conflicts: while we reserve the right to amend any votes proposed by our voting agent, and to this end review voting proposals ahead of AGMs, we are generally satisfied that our voting and engagement agent has suitable expertise, policies, research and resources to carry out stewardship activities on a day to day basis on our behalf. SG 07.2 For the roles for which you have RI oversight/accountability or implementation responsibilities, indicate how you execute these responsibilities.

We have an independent Board which sets out our business strategy and plan, and provides oversight and steer on the PPF's responsible investment framework and beliefs, which are reviewed annually as a minimum. The Board usually delegates the development and maintenance of the PPF's RI framework and beliefs and determining the overall approach to ESG risk management of the Fund's investments to the Board's Investment Committee, but the Board does provide direct steer where issues are considered, for example on corporate governance priorities and on the consideration of minimum standards in our investments.

The Investment Committee develops the PPF's investment principles and strategic approach to investment, including developing and maintaining the Fund's RI principles and policies, and determining the overall approach to ESG risk management of the Fund's investments, as well as approving any new RI policies, and reviewing the existing principles and policies annually. The Asset and Liability Committee is responsible for overseeing the day-to-day implementation of the Fund's investment strategy and the Statement of Investment Principles (SIP), and regularly reviewing the Responsible Investment performance of our external investment managers. The Asset & Liability Committee provides ongoing review of RI/ESG risks in the PPF's investments and effective implementation.

The Chief Investment Officer, as part of the Executive Committee, is responsible for investing the assets of the PPF in accordance with the Board's SIP, including RI & Corporate Governance. The CIO has responsibility for the Head of ESG who provides support and expertise on RI, oversees appropriate implementation of the RI framework, engages with external managers and service providers, monitors investments for ESG risks and opportunities (including climate change) across asset classes, measures progress and stewardship activities (such as engagement and voting), tracks industry/regulatory developments and oversees reporting to relevant stakeholders. The CIO also has responsibility for the Portfolio Managers within the investment team, who ensure adherence to the RI framework and integration of ESG for their relevant asset classes on a day-to-day basis. The PPF employs a dedicated team of experienced investment professionals. Team members have diverse backgrounds thereby mitigating the risk of "group think". Team members are encouraged to develop their skills within a particular area of investment field working on a range of investment projects.

The investment strategy is designed to be robust to changes in the capital market environment, and as part of this, our responsible investment strategy contributes to risk mitigation but also considers where opportunities might exist. The PPF seeks to utilise a diverse range of investment levers to ensure that the return per unit risk is maximised while respecting the long term targets set out in the Statement of Investment Principles. Value is added through active manager selection, tactical asset allocation, portfolio construction and efficient implementation. A rigorous process is used to gather the data on which these decisions are based and proprietary systems are used to track the information. The team meets with fund managers at regular intervals and formally evaluates the managers' ability to deliver on their agreed performance targets. Managers are evaluated on various criteria: Organisational Stability, Calibre of Personnel, Investment Process, Alignment with PPF Responsible Investment Principles and ESG Integration, Risk and Performance. An external Engagement and Voting specialist is used to support the PPF as an active owner, but our external fund managers are also expected to demonstrate active stewardship when managing our assets on behalf of the PPF.

SG 10.3	Describe any additional actions and initiatives that your organisation has taken part in during the reporting year to promote responsible investment [Optional]
---------	---

In promoting responsible investment in the market place we focus on areas where we wish to see greater alignment with our organisational goals. For example, we meet with asset managers that wish to discuss their RI approaches in more depth or require feedback on aspects of same.

We have had some success in encouraging asset managers to sign up to the PRI. We contribute to selected publications, always with a focus on the practical implementation of the Principles, the challenges that we face, and the solutions we have found. While there are many asset managers interested in our selection and monitoring processes, it is also important to reach out to other asset owners to share and improve best practice.

Our engagement service provider, Hermes EOS, has published case studies on its website, participated in academic research, responded to consultations related to responsible investment, and supported the development of stewardship codes. EOS is involved in the following key networks on our behalf.

- Asian Corporate Governance Association (ACGA)
- Assogestioni (Italy)
- Canadian Coalition of Good Governance (CCGG)
- Carbon Disclosure Project
- Council of Institutional Investors (USA)
- Dansif (Denmark)

As outlined elsewhere, we require our fund managers to provide full updates on their ESG activities/initiatives as part of our monthly/quarterly meetings. Our assessment of their performance, referencing PPF Policies, is then ranked and recorded on our internal manager ratings system, which is then reviewed by the CIO, ALCO (mthly) and Investment Committee (qtrly)

<input checked="" type="checkbox"/> Add Example 1			
Topic or issue	Evolution of RI DDQ by asset class		
Conducted by	Internal staff		
Asset class	All asset classes		
Scope and process	Building out asset class specific RI DDQ templates, based on the PRI's recommended DDQ templates and evolving best practice		
Outcomes	This has enabled us to review more detailed responses on ESG practices of potential new managers, and challenge them on their responses during the selection process.		
<input checked="" type="checkbox"/> Add Example 2			
Topic or issue	Incorporation of ESG expectations in fund terms		
Conducted by	Internal staff		
Asset class	All asset classes		

Scope and process	We have utilised the PRI Asset owner guidance around incorporating ESG into fund terms and clauses, to better state our expectations on ESG integration and reporting
Outcomes	This is allowing us to discuss evolving best practice with new managers and ensure that our own evolving expectations are understood by them.

☒ Add Example 3

Topic or issue	TCFD reporting
Conducted by	Internal staff
Asset class	All asset classes
Scope and process	As a recent supporter of the TCFD recommendations, we have started asking our managers about whether they are committed to the TCFD initiative/understanding their exposure to potential climate-related risks and how they are considering reporting on this.
Outcomes	We recognise that the industry is still in the early stages of understanding the implications of the TCFD recommendations, so see this as something that will evolve over time.

SAM 09.2	Additional information.
	<p>RI criteria are formally part of our manager selection and monitoring process. Weights given to RI considerations vary from asset class to asset class depending on relevance and availability of best practice. As part of the appointment process we include RI due diligence, where appropriate, through dedicated meetings. Our investment team monitors the degree to which managers' RI approach is aligned with our requirements. The team uses a RI rating (red, amber or green) which is fully integrated into the PPF's wider performance-monitoring framework. The RI rating is one of a number of equally weighted qualitative factors assessing manager performance more widely and which sit alongside a quantitative performance assessment. No single factor determines the view we take of our managers. Our fund managers are required to report RI issues alongside investment performance, and RI is a standing agenda item in manager meetings. The team engages with fund managers on their rating. Since the introduction of the rating, the majority of our fund managers have taken steps towards better alignment with the PPF's RI policies, and RI reporting has significantly improved in quantity and quality.</p>

	Our service provider Hermes EOS engages with companies on behalf of its clients on environmental, social, governance, strategy, risk and communication issues with the goal of achieving beneficial change with respect to risk management, value creation and reputation. Engagements are objective-driven and follow a structured, milestone-driven approach. Interactions are sought at the board, senior management and specialist level, which is complemented by collaborations with other investors where appropriate. The work is carried out by a multinational team with diverse experience and skills. All company engagements are sought to be complementary to Hermes EOS' public policy, best practice and voting work.
